Final Rejection

The Status of Claims

Claims 1,3-9,15 and 21 are pending.

Claims 1,3-9,15 and 21 are rejected.

Claim Rejections - 35 USC § 112

Applicants' argument filed 2/28/08 have been fully considered but are not persuasive.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The rejection of Claims 1-9, and 11-16 under 35 U.S.C. 112, second paragraph, has been maintained due to applicants' failure to modify the claims.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1625

3. The rejection of Claims 1-8, and 11-15 under 35 U.S.C. 102(b) as being clearly anticipated by Baker et al (EP 0749948) has been withdrawn.

4. The rejection of Claims 1-3, 5-6,12-13 under 35 U.S.C. 102(b) as being clearly anticipated by Sunley et al (Catalysis Today 58 (2000) 293-307) has been withdrawn..

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The rejection of Claims 1-9, and 11-16 under 35 U.S.C. 103(a) as being unpatentable over Baker et al (EP 0749948).

The rejection of Claims 1-9, and 11-16 under 35 U.S.C. 103(a) as being unpatentable over Baker et al (EP 0749948) has been maintained with reasons of record filed on 11/28/07.

Applicants' Argument

Applicants argue the following issue:

a. Baker is silent as to the problem of preventing precipitation of an ir /promoter system in which high concentrations of promoter are present; therefore, the skilled artisan in the art could not have been motivated to arrive at the subject matter of the claimed invention based on Baker.

Applicants' arguments have been noted, but the arguments are not persuasive.

First, regarding the applicants' argument, the Examiner has noted applicants' arguments. However, the claims are not directed to the improvement of preventing precipitation of an ir /promoter system in which high concentrations of promoter are present during the claimed process; but, rather, they are simply directed to a process for the production of acetic acid by carbonylating methanol with carbon monoxide in the presence of an iridium carbonylation catalyst. Furthermore, with respect to the difference in the concentrations of promoter between the prior art and the claimed process, this is directly related to the optimization of the process in order to control the selectivity of the catalytic process by routine experimentation. Therefore, it would have been obvious to the skilled artisan in the art to be motivated to adjust the ratio of iridium, promoter and stabilizer in the prior art process so as to improve the rate for the carbonylation process. This is because the skilled artisan in the art would expect such a modification to be feasible and successful with the purview of the skilled artisan in the art.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
